

Callum McKenna

Principal Consultant - Accountancy

Callum is an established and successful finance recruiter, with over five years' experience. He focuses on the successful placement of accounting professionals from AAT Trainee right the way through to senior finance level.

Callum's expertise lies within assisting both SMEs and large corporations, and he prides himself in his ability to offer a tailored service to both candidates and clients.

In a candidate-driven market, Callum will use his expertise of the accountancy market, to attract and approach the best talent available.

Testimonials

"Callum supported us in a recruitment campaign for a number of posts in our Finance Team. Having tried previously without success to fill these roles ourselves, Callum identified new sources of potential candidates which has resulted in some excellent appointments. He made sure from the start that he fully-understood our requirements and kept in regular contact as the campaign progressed. This was all despite the added challenges of the COVID-19 lockdown which hit just as recruitment began."

Interim Head of Finance, Reigate & Banstead Borough Council

"Callum was extremely helpful when looking for a new job opportunity. He listened to what I was looking for and kept me informed as and when appropriate roles came up. I have now been placed by Callum in a role that sounds really exciting and exactly what I wanted."

Financial Controller, Manufacturing Company

"Callum was hugely instrumental in helping me find a new job. As well as the usual role of finding the available jobs, contacting me and setting up the interviews, we talked before the interview to help prepare and he found out as much about the format of the interview as he could. He is very friendly and helpful and I would definitely recommend him."

Management Accountant, Manufacturing Company

"Callum reached out to me regarding multiple roles to help my job search. He was always in regular contact finding me the best roles that suited my requirements. Really friendly and professional approach. If you know of anyone who is looking for a job then send them to Callum. Really good consultant and very knowledgeable in his field."
